   - AIDS
   - Chlamydia
   - Genital Herpes
   - Genital Warts
   - Gonorrhea
   - Hepatitis B
   - Syphilis
   - Trichomonas
   - I don't know

3. Which STD can give you painful sores or blisters around the genital area? (circle one)
   - AIDS
   - Chlamydia
   - Genital Herpes
   - Genital Warts
   - Gonorrhea
   - Hepatitis B
   - Syphilis
   - Trichomonas
   - I don't know

4. Which STD do more people get every year than any other? (circle one)
   - AIDS
   - Chlamydia
   - Genital Herpes
   - Genital Warts
   - Gonorrhea
   - Hepatitis B
   - Syphilis
   - Trichomonas
   - I don't know

5. Which STD looks like a tiny tadpole? (circle one)
   - AIDS
   - Chlamydia
   - Genital Herpes
   - Genital Warts
   - Gonorrhea
   - Hepatitis B
   - Syphilis
   - Trichomonas
   - I don't know

6. Which STD can give you liver damage? (circle one)
   - AIDS
   - Chlamydia
   - Genital Herpes
   - Genital Warts
   - Gonorrhea
   - Hepatitis B
   - Syphilis
   - Trichomonas
   - I don't know

The following questions can have more than one answer. If you don’t know all of them, circle the ones that you do know.

8. Which 4 STDs are caused by viruses? (circle four)
   - AIDS
   - Chlamydia
   - Genital Herpes
   - Genital Warts
   - Gonorrhea
   - Hepatitis B
   - Syphilis
   - Trichomonas
   I don't know

9. Which 3 STDs give you unusual discharge from your vagina? (circle three)
   - AIDS
   - Chlamydia
   - Genital Herpes
   - Genital Warts
   - Gonorrhea
   - Hepatitis B
   - Syphilis
   - Trichomonas
   I don't know

10. Which 2 STDs give you bumps, blisters or lesions in the genital area? (circle two)
    - AIDS
    - Chlamydia
    - Genital Herpes
    - Genital Warts
    - Gonorrhea
    - Hepatitis B
    - Syphilis
    - Trichomonas
    I don't know

11. Which 4 STDs can be cured? (circle four)
    - AIDS
    - Chlamydia
    - Genital Herpes
    - Genital Warts
    - Gonorrhea
    - Hepatitis B
    - Syphilis
    - Trichomonas
    I don't know

12. Which 2 STDs are usually passed on by skin-to-skin contact? (circle two)
    - AIDS
    - Chlamydia
    - Genital Herpes
    - Genital Warts
    - Gonorrhea
    - Hepatitis B
    - Syphilis
    - Trichomonas
    I don't know

13. Which 2 STDs, if left untreated, commonly lead to PID, or Pelvic Inflammatory STD? (circle two)
    - AIDS
    - Chlamydia
    - Genital Herpes
    - Genital Warts
    - Gonorrhea
    - Hepatitis B
    - Syphilis
    - Trichomonas
    I don't know

14. For which 2 STDs can symptoms go away and then the same symptoms come back? (circle two)
    - AIDS
    - Chlamydia
    - Genital Herpes
    - Genital Warts
    - Gonorrhea
    - Hepatitis B
    - Syphilis
    - Trichomonas
    I don't know

15. From which of the following STDs do people usually die if they have?
    - AIDS
    - Chlamydia
    - Genital Herpes
    - Genital Warts
    - Gonorrhea
    - Hepatitis B
    - Syphilis
    - Trichomonas
    I don't know
