1. What is your date of birth?   Month__________  Day _______  Year ______

2. How would you describe your race / ethnicity?
   _____ African American / Black
   _____ European American / White
   _____ Hispanic
   _____ Asian
   _____ Native American / American Indian
   _____ Multi-ethnicity / bi-racial
   _____ Other _____________________________

3. What kind of school are you going to?
   _____ Not in school
   _____ High School
   _____ Working on a GED
   _____ Trade/Vocational
   _____ College
   _____ Other ____________

4. Do you plan to finish high school or get a GED?
   _____ Finish high school
   _____ Get GED
   _____ No
   _____ Have finished high school or GED already

5. How old were you when you had sex for the first time? _________

6. Do you think that you are infertile (you are unable to get pregnant)?
   _____ Yes          _____ No          _____ Don’t know

7. In the past 3 months, which of the following problems have you ever been told by a doctor or nurse that you had?  Circle Yes or No for each one:
   Yes   No
   Crabs
   Chlamydia
   Genital herpes
   Syphilis, syph
   GC, gonorrhea, clap
   Genital Warts, HPV, human papilloma virus
   Hepatitis
   Trichomoniasis, trich
   AIDS, HIV
   None

8. During the past 3 months, have you had a pregnancy test?
   _____ Yes, tested at a clinic or Dr.’s office       _____ Yes, tested at home       _____ No

9. During the past 3 months, have you had a positive pregnancy test or been pregnant?
   _____ Yes           _____ No
10. During the past 30 days, how many **times** did you have sex?  
_____ Times

11. During the past **3 months**, with how many people did you have sex?  
_______

12. The **last** time you had sex, was it against your will in any way?  
_____ Yes  _____ No

13. What forms of birth control did you use the **last** time you had sex?  
Circle **Yes or No** for each one:
- Yes  No  **None**
- Yes  No  **Birth control pills**
- Yes  No  **Condoms**
- Yes  No  **Pulling out, withdrawal**
- Yes  No  **Spermicide such as VCF, foam or Concepptrol**
- Yes  No  **Birth control shot, Depo Provera**
- Yes  No  **Norplant**
- Yes  No  **“Morning after” pills, emergency contraception**
- Yes  No  **Rhythm**
- Yes  No  **Diaphragm**
- Yes  No  **Other ____________________________**

14. The **last** time you used a condom, where did you get it?  
- _____ Never used a condom  
- _____ Guy that I had sex with had it  
- _____ From a friend  
- _____ Brother or sister  
- _____ Mother or father  
- _____ Other relative  
- _____ School clinic  
- _____ Family planning clinic  
- _____ Other clinic, private doctor, nurse practitioner  
- _____ Drug store  
- _____ Somewhere else - where? ____________________________

15. During the past 3 months, how often did you use condoms when having sex?  
- _____ Every time, with every partner  
- _____ Almost every time  
- _____ More than half the time  
- _____ About half the time  
- _____ Less than half the time  
- _____ Never

16. Over the past 3 months, which of the following have happened to you?  
Circle **Yes or No** for each one  (If yes, how many times?)
- a. Condom broke or ripped  
  Yes (_____number of times)  No
- b. Condom fell off  
  Yes (_____number of times)  No
- c. Condom leaked  
  Yes (_____number of times)  No
For this survey, we are interested in 8 sexually transmitted infections (STIs): HIV/AIDS, Chlamydia, Genital Herpes, Genital Warts, Gonorrhea, Hepatitis B, Syphilis, and Trichomonas. When the questions below ask about STIs, they are referring to these diseases.

Circle 'T' for True or 'F' for False. If you don’t know, circle '?'

1. T ? F A common symptom of STIs in a man is discharge (drip) from his penis.
2. T ? F A common symptom of STIs is burning with urination.
3. T ? F A common symptom of STIs is a sore on the penis or vagina.
4. T ? F A common symptom of STIs in a woman is discharge from her vagina that causes itching or burning.
5. T ? F You can not have an STI if you feel perfectly fine.
6. T ? F A woman who has an STI can get an infection in her uterus and tubes.
7. T ? F A pregnant woman who has an STI can give it to her baby.
8. T ? F There are medicines to cure all types of STIs.
9. T ? F Using a condom when you have sex will help protect you against STIs.
10. T ? F Contact with a dirty toilet seat is a common cause of STIs.
11. T ? F If you have an STI your sexual partner probably has it too.
12. T ? F Condoms are 100% effective against STIs.
13. T ? F There is a bigger chance of getting an STI if you have sex with many people.
14. T ? F There is a bigger chance that a woman will get an STI if she has sex with a guy who has sex with many other women.
15. T ? F Having anal sex with a guy (i.e., his penis in your anus/behind) increases your chance of getting AIDS, compared to having vaginal sex (his penis in your vagina).
16. T ? F When using a condom, adding Vaseline as a lubricant lowers the chance of getting an STI.
17. T ? F When using a condom, adding a spermicide (birth control foam or jelly containing Nonoxynol-9) lowers the chance of getting an STI.
18. T  F  Doing oral sex on a guy (your mouth on his penis) increases your chance of getting AIDS, compared to having vaginal sex (his penis in your vagina).

19. T  F  You can not get an STI if you have sex with only one person during your whole life.

20. T  F  The penis should be erect (hard) when the condom is put on it.

21. T  F  When a condom is placed on the penis, space should be left at the tip of the condom.

22. T  F  The condom should be completely unrolled before it is placed on the penis.

23. T  F  Condoms can be reused.

24. T  F  To remove a condom after sex, grasp the tip and remove it gently but swiftly.

25. T  F  Storing or carrying condoms in a hot or warm place can destroy their effectiveness.

26. T  F  It is safer to use two condoms, one on top of the other, than to use only one condom.

27. T  F  There are no cures for STIs that are caused by bacteria.

28. T  F  You will get tested for all STIs in a regular check-up.

29. T  F  STIs that are caused by a virus can be cured with antibiotics.

30. T  F  Having sex without a condom is safe if he pulls out.

31. T  F  You can get one test that will tell you if you have any STIs.

32. T  F  Taking a shower before and after sex will help keep you from getting an STI.

33. T  F  The more people your partner has sex with, the more likely he is to give you an STI.

34. T  F  It's easier for a younger woman's cervix to get infected with an STI.

35. T  F  Masturbating is safer than oral sex.

36. T  F  Most people who get STIs get them from people who didn't even know they had one.

37. T  F  It is usually better to wait and see if an STI will go away by itself before getting medicine.

38. T  F  A pap test or pap smear will test you for all STIs.

39. T  F  People with bacterial vaginosis (BV) probably got it from a guy.

40. T  F  Bacterial vaginosis (BV) can cause problems with pregnancy.
Please circle the STI or STIs below each question to answer. Circle "I don't know" if you have no idea.

1. Which STI attacks the body's immune system? (circle one)
   AIDS  Chlamydia  Genital  Genital  Gonorrhea  Hepatitis B  Syphilis  Trichomonas  I don't know
   & HIV  Herpes  Warts

2. Which STI can cause a rash on the palms of your hands and the soles of your feet? (circle one)
   AIDS  Chlamydia  Genital  Genital  Gonorrhea  Hepatitis B  Syphilis  Trichomonas  I don't know
   & HIV  Herpes  Warts

3. Which STI can give you painful sores or blisters around the genital area? (circle one)
   AIDS  Chlamydia  Genital  Genital  Gonorrhea  Hepatitis B  Syphilis  Trichomonas  I don't know
   & HIV  Herpes  Warts

4. Which STI do more people get every year than any other? (circle one)
   AIDS  Chlamydia  Genital  Genital  Gonorrhea  Hepatitis B  Syphilis  Trichomonas  I don't know
   & HIV  Herpes  Warts

5. Which STI looks like a tiny tadpole? (circle one)
   AIDS  Chlamydia  Genital  Genital  Gonorrhea  Hepatitis B  Syphilis  Trichomonas  I don't know
   & HIV  Herpes  Warts

6. Which STI can give you liver damage? (circle one)
   AIDS  Chlamydia  Genital  Genital  Gonorrhea  Hepatitis B  Syphilis  Trichomonas  I don't know
   & HIV  Herpes  Warts

7. Which STI gives you little bumps on your skin that can look like a tiny cauliflower? (circle one)
   AIDS  Chlamydia  Genital  Genital  Gonorrhea  Hepatitis B  Syphilis  Trichomonas  I don't know
   & HIV  Herpes  Warts
The following questions can have more than one answer. If you don’t know all of them, circle the ones that you do know.

8. Which 4 STIs are caused by viruses? (circle four)

- AIDS
- Chlamydia
- Genital
- Genital
- Gonorrhea
- Hepatitis B
- Syphilis
- Trichomonas
- I don't know

9. Which 3 STIs give you unusual discharge from your vagina? (circle three)

- AIDS
- Chlamydia
- Genital
- Genital
- Gonorrhea
- Hepatitis B
- Syphilis
- Trichomonas
- I don't know

10. Which 2 STIs give you bumps, blisters or lesions in the genital area? (circle two)

- AIDS
- Chlamydia
- Genital
- Genital
- Gonorrhea
- Hepatitis B
- Syphilis
- Trichomonas
- I don't know

11. Which 4 STIs can be cured? (circle four)

- AIDS
- Chlamydia
- Genital
- Genital
- Gonorrhea
- Hepatitis B
- Syphilis
- Trichomonas
- I don't know

12. Which 2 STIs are usually passed on by skin-to-skin contact? (circle two)

- AIDS
- Chlamydia
- Genital
- Genital
- Gonorrhea
- Hepatitis B
- Syphilis
- Trichomonas
- I don't know

13. Which 2 STIs, if left untreated, commonly lead to PID, or Pelvic Inflammatory Disease? (circle two)

- AIDS
- Chlamydia
- Genital
- Genital
- Gonorrhea
- Hepatitis B
- Syphilis
- Trichomonas
- I don't know

14. For which 2 STIs can symptoms go away and then the same symptoms come back? (circle two)

- AIDS
- Chlamydia
- Genital
- Genital
- Gonorrhea
- Hepatitis B
- Syphilis
- Trichomonas
- I don't know

15. From which of the following STIs do people usually die if they have?

- AIDS
- Chlamydia
- Genital
- Genital
- Gonorrhea
- Hepatitis B
- Syphilis
- Trichomonas
- I don't know
